

Ultra Clean. Ultra Precise. Ultrasonic.

ALL SAFE GLOBAL INTRODUCES **ULTRASONIC CYLINDER TESTING**

All Safe Global is proud to add state-of-the-art ultrasonic cylinder testing and recertification services to its premier DOT-certified testing facility.

This new capability serves our customers' growing need for high-pressure cylinder testing, particularly for specialty gas cylinder recertification.

Ideal for cylinders used for precision welding (where traceable gases are necessary), ultra-high purity nitrogen/argon/helium, and laser and other specialty gas mixes.

**Preserves residual
high-value gases**

**Allows inspection
without valve removal**

**Avoids moisture and
contamination
during testing**
