

Fire Extinguisher Training

Basic Fire Extinguisher Education for Your Business

OSHA requires that employers provide an annual educational program for employees on fire extinguisher use and early stage firefighting (29 CFR 1910.157). Our comprehensive training meets OSHA requirements and is designed to keep your employees and your business safe.

Classroom Training

- 30 minute classroom session with video
- Fire and extinguisher types
- Review company evacuation plan
- Extinguisher inspection and maintenance intervals
- Fire fighting: when to and when not to
- Operating hazards and clean-up
- Q&A session, with focus on customer-specific issues
- May qualify for Insurance discount

Hands-On Live Fire Training

- Hands-on extinguisher training
- How to attack a fire
- PASS technique: Pull • Aim • Squeeze • Sweep
- Effectiveness of extinguisher types
- Extinguisher range and discharge time
- Helpful Training Tips: Provide the training date to your fire department and call them the morning of training. Notify your neighbors. Client is responsible for clean-up of live training area.

OSHA-compliant certificate of completion

\$103 classroom fee + \$11 per participant
